

# Health and Safety Policy Statement

Omega Environmental Services Ltd provide Asbestos Management and Removal Services to a broad range of industries both in the public and commercial sectors.

We will endeavor to create an environment where every employee and contractor can carry out their work without incident, in all areas under our direct control, as such the board are therefore committed to:

- Provision and maintenance of a Safety Management System that meets or exceeds the requirements of OHSAS 18001:2007 and all relevant statutory, regulatory and other requirements
- Communicating the system throughout the business and providing appropriate training to ensure that all employees and contractors understand and embrace the requirements of the system. Employees and contractors will have the relevant training and certification to carry out the requirements of their role.
- Control all health and safety related risks to our employees, contractors, clients, visitors and other relevant parties that originate from our operations and communicate control measures.
- Provide all employees and contractors with the necessary information and equipment to carry out their work safely.
- Prevention of injury and ill-health and the promotion of wellbeing through continual improvement in occupational health and safety management and performance.
- Setting and disseminating safety objectives throughout the business, providing the framework for measuring the objectives and regularly reviewing the outcomes.
- Continually monitoring and reviewing the system to ensure that our system continues to meet our requirements and remains suitable for our business.
- Developing and maintaining a culture and workplace which allows our employees and contractors to work safely and challenge unsafe behaviours and practices throughout the business. Omega expects our workforce to take reasonable care for the health and safety of themselves and of any other persons who may be affected by their work and accordingly report any safety concerns.
- Make suitable arrangements for the timely communication and consultation with all employees and contractors of all safety related information

We will continually review this policy to ensure it reflects the needs of our business.
